Risks

Data Security and Safety

“

Our blind trust in AI providers is misplaced. We all know that the amount of data that we are implicitly or explicitly forced to leave behind is too great.

Five of the six asks are legislation, not engineering. — Schneider and Ziyal

page 42, the data letter inbox

Data Security and Safety

“

The ‘data letter’, an obligation for all companies and authorities to tell us what data they store about us and how to view, correct and delete it;

Maps

“

The proprietary algorithms of Maps have access to vast amounts of data.
