REAL ARTISTS SHIP. - STEVE JOBS

The Why

A lecture that teaches tools and workflows must also assess tools and workflows. Written exams test recall; a project report tests whether you can actually build and deploy something. Enter the Projektbericht.

PICK ANY BLOCK FROM THE COURSE and build a meaningful extension onto it. The extension should add functionality, improve reliability, or strengthen security in a way that goes beyond what the lecture covered. The choice is yours, but each extension must be unique across the class: submit your proposal for approval on a first come, first served basis with me. If your proposal strikes home with me, we can also discuss small full stack projects, which live outside the scope of the lecture material.

SUBMIT A WRITTEN REPORT AS PDF and a link to your snapshot.

The report must cover:

- Which block you chose and what it covers in the course.
- What you built on top of it, which methods, tools and techstack you used, and why it adds value.
- Open questions and problems you encountered and how you resolved them.
- What works, what remains incomplete, and what would you do next.

THE PROJEKTBERICHT AS IN THE PRÜFUNGSORDNUNG. The official frame for the Projektbericht is set by the DHBW Studien- und Prüfungsordnung Wirtschaft, available [here](#):

“Die zu prüfende Person soll zeigen, dass sie in der Lage ist, Projekte oder Studien mit wissenschaftlicher oder praktischer Problemstellung selbstständig zu bearbeiten sowie deren Ergebnisse schriftlich zu dokumentieren. Der Projektbericht soll je zu prüfender Person in Modulen mit fünf bis sechs ECTS-LP zehn bis zwölf Seiten, in Modulen mit sieben beziehungsweise acht ECTS-LP 14 bis 16 Seiten und in Modulen mit neun beziehungsweise zehn ECTS-LP 18 bis 20 Seiten umfassen.”

HOW TO WRITE THE REPORT. A practical guide for writing reports and theses lives [here](#).

For deeper druidic knowledge on writing a thesis, consult [here](#).

EVALUATION considers three dimensions: *depth* of the extension beyond the lecture material, *understanding* demonstrated through explanation and a VM snapshot, and *quality* of the writing.

LOOKING FOR INSPIRATION? Explore what tools modern teams actually use [here](#) or browse the ThoughtWorks Technology Radar [here](#). Pick something that excites you; the best reports come from genuine curiosity.
